

Wilshire Grand Los Angeles package restrictions:

The restrictions below only pertain to individual packages delivered to the Wilshire Grand Los Angeles. There are limits to the total weight per container of your shipment and the total number of packages (3) in your shipment. Shipments larger than the limits listed below will require addition portage charges.

Packages can be up to 50 lbs (23.5 kg).

Packages can be up to 146 inches (370 cm) in length and girth combined.

Packages can be up to 48 inches (122 cm) in length.

Packages with a large size-to-weight ratio require special pricing and dimensional weight calculations.

Note: Packages that exceed weight and size limits are subject to an additional portage charge.

How To Measure Your Package Size

To measure ground packages use the following formula:

Length + 2x Width + 2x Height

Step 1. Determining Length

Measure the longest side of the package, rounding to the nearest inch. This is your length.

Step 2. Determining Girth (2x Width + 2x Height)

Measure the width of the package, rounding to the nearest inch. Multiply this number by 2.

Measure the height of the package, rounding to the nearest inch. Multiply this number by 2.

Add these two numbers together. This is your girth.

Step 3. Add the length and the girth together. This is your package measurement.

Step 4. Weigh the package to obtain its actual weight.
